Profile

I am an enthusiastic and creative thinker who has the ability to use own initiative. I am particularly interested in print-based design and illustration. I enjoy experimenting and working with a variety of media, as well as utilising traditional methods such as the sewing machine and hand drawing.
Layout, composition and typography are key to my design approach.
I have good knowledge of Illustrator, Photoshop, InDesign, Microsoft Office and basic abilities in Flash.

I enjoy being creative using the skills I already have but also find great appreciation in learning from others. I value art and time reading novels, travelling, watching films, photography, listening to music and visiting museums and galleries as well as creating my own work.

Work Experience

Tatty Devine Ltd
May 2007 - January 2008
After completing a three month internship I was offered a part-time paid job as a design assistant.

Marmalade magazine
March 2007
A two week work placement which included elements of design such as image editing, layout design and research-based work. Admin duties also played a big part in the experience.
